

FINANCING

Instead of paying cash, why not let the equipment pay for itself? By leasing your equipment through Dimension Funding, you can get the equipment you want without hurting your cash flow. Dimension Funding offers low, fixed monthly rentals over a long-term payment schedule which means the payments are made from the profits the equipment earns.

- 1 Select the equipment or software that you wish to purchase.
- 2 Print out the - [Dimension Funding Credit Application](#)
- 3 After you have it filled out, please fax it to Ryan Hastings at Dimension Funding. His fax number is 866-880-2927. You can also fill out a secure online application by clicking here: <http://dimensionfunding.com/rhastings.html>
- 4 You will receive a proposal detailing terms and conditions of the lease and any additional requirements to obtain approval.
- 5 Upon lease approval, formal documents will be e-mailed or sent via overnight to you for your signature.
- 6 After Dimension Funding receives signed lease documents, a purchase order will be sent to your vendor to authorize delivery of your equipment.
- 7 After equipment has been delivered, Dimension Funding will contact you to confirm receipt of equipment and your lease will commence.

Leasing Overcomes Budget Limitations

Leasing lets you get the equipment free of budget ceilings. Low monthly payments lets you hold expenditures within budget limits.

Leasing Minimizes Obsolescence

Ownership and depreciation of equipment encourages its use beyond its productive life. At the expiration of a lease, you have the opportunity to replace worn or obsolete equipment.

Leasing Conserves Cash

Since a lease does not require a down payment, it is equivalent to 100% financing. Unlike many other types of financing, a lease does not require compensating bank balances.

Leasing Improves Cash Flow

Eliminating the down payment and creating a pre-tax write-off of lease payments creates cash flow and possible tax advantages. Also, lease terms are usually longer than direct financing which means flexibility for the end user.

Leasing Fights Inflation

Leasing costs remain the same over the life of the lease agreement, no matter how much prices and interest rates rise. A lease lets you use the extended term to pay for today's needs with tomorrow's dollars.

Leasing Simplifies Expansion

You never have to worry about selling old equipment. When the lease has ended we can help you arrange to trade in your equipment and lease newer, more modern equipment.
