Contents

1. Starting / Closing.....	1
2. Playback.....	2

1. Starting / Closing

The “ePlayer” playbacks the media file recorded by “eView”.

◆ Start “ePlayer”

To start “ePlayer”, user can double click on its shortcut on desktop or executes it from sub-item “ePlayer” of “eSurveillance” menu.

ePlayer shortcut

ePlayer Menu

◆ Close “ePlayer”

Click on exit icon in control panel to close “ePlayer”.

2. Playback

◆ Find Media File

The "eView" saved the file in specific folder. For instance, user started recording channel 3 at 21:00 PM Dec/25 2009. The "eView" stored media files in here:
C:\eView\Record\2009\12\25\21_3

◆ Functions

The "Time Bar" reports the time of media file.

The "Open File" icon: Open a dialog to assign the media file.

The "Exit" icon: Close the "**ePlayer**" itself.

The "Play" icon: Start to playback media file.

The "Stop" icon: Stop the playback.

The "Pause" icon: Pause the playback.

The "Next" icon: Go next frame of the media file in pause mode.

The "Snapshot" icon: Snapshot the current screen in pause mode.

The "Minimum" icon: Hide the "**ePlayer**".
